Haridwar, Uttarakhand - 247671, India

OBJECTIVE

Motivated and results-driven Full Stack Web Developer Intern with a solid foundation in modern web technologies, including HTML, CSS, JavaScript, React, and Node.js. Experienced in building and deploying responsive web applications with a focus on delivering high-quality, scalable solutions. Seeking to leverage hands-on expertise in full-stack development to contribute to innovative projects and grow with a dynamic software development team.

EXPERIENCE

- **CodSoft [Certificate]** September 2023 - October 2023
Web Development Intern India
 - **Improved and deployed** **three responsive web applications** (a personal portfolio, calculator app, and landing page) using HTML, CSS, and JavaScript.
 - **Boosted UI/UX design** by creating user-friendly layouts and optimizing page performance, resulting in a **15% increase in user engagement**.
 - **put into clean coding practices** and **maintained version control with Git and GitHub**, reducing code merge conflicts by **10%**.
 - **Consistently delivered** projects on time, gaining hands-on experience in front-end development and problem-solving within a professional internship setting.
- **Bharat Intern [Certificate]** September 2023 - October 2023
Web Development Intern Remote
 - **Built interactive projects**, including a Weather App with API integration, a Netflix Clone (front-end UI), and a Temperature Converter using HTML, CSS, and JavaScript.
 - **Utilized core front-end development principles** to create responsive and visually appealing web interfaces.
 - **Strengthened skills in API handling**, DOM manipulation, and responsive design through real-world tasks.
 - **Refined time management and project delivery** by completing all assigned tasks within internship deadlines.

EDUCATION

- **Veer Madho Singh Bhandari Uttarakhand Technical University** Sep 2022 – Jun 2026
Bachelor of Technology (B.Tech) in Computer Science & Engineering Dehradun, India
 - **Current GPA:** 7.01 / 10.00 (till 6th Semester)
 - **Key Coursework:** Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Web Development
- **Government Inter College Niranjanpur** 2022
Higher Secondary Education (Class XII) – UBSE/State Board [Haridwar, India]
 - **Percentage:** 70%
 - **Core Subjects:** Physics, Chemistry, Mathematics
- **Government Inter College Niranjanpur** 2020
Secondary Education (Class X) – UBSE/State Board [Haridwar, India]
 - **Percentage:** 83.2%

PROJECTS

- **Portfolio Website (Highlight Project)** May 2024 - July 2024
Tools: React, Tailwind CSS, JavaScript, GitHub Pages [Web]
 - **Designed and developed a responsive personal portfolio website**, showcasing projects, articles, and open-source contributions.
 - **Implemented modern front-end technologies** (React, Tailwind CSS) to create an optimized UI/UX.
 - **Integrated a unique resume comparison feature**, demonstrating innovative problem-solving skills.
 - **Deployed the website on GitHub Pages**, establishing a professional online presence.
- **ClayOra – Full Stack E-commerce Platform (Highlight Project)** June 2025 - Present
Tools: React.js, Node.js, Express.js, MongoDB, JWT, REST APIs [Web]
 - **Developed a full-stack e-commerce platform** for handmade pottery products using the MERN stack.
 - **Implemented JWT-based authentication and role-based access control** for users, sellers, and admin.
 - **Built product management, cart system, and order processing modules** with secure RESTful APIs.

- **Designed a responsive and user-friendly UI** to enhance customer experience and improve performance.
- **Carbon Footprint Tracker (Ongoing)** Sep 2025 - Present
Tools: React Native, Node.js, MongoDB, Google Maps API
 - **Developing a mobile application** to calculate and visualize individual and community carbon footprints.
 - **Integrating APIs to track transport and energy usage** to promote sustainability awareness.
 - **Focusing on climate-tech innovation** to encourage eco-friendly practices.

RESEARCH WORK / PUBLICATIONS

- **Ongoing Research: Design and Implementation of a Web-Based Carbon Footprint Tracker** Nov 2025 – Present
Under Review / In Progress
 - **Developing a web-based model for estimating and visualizing carbon emissions using data purification, model training, and predictive analytics.** Integrates React (frontend) and Node.js (backend) for real-time sustainability tracking.
- **Future Research: Predictive Modeling for Climate Impact Assessment** Expected – 2026
Conceptual Stage
 - **Designing ML models involving regression and deep learning approaches to forecast environmental impacts from human activities.** Focus on preprocessing, feature extraction, and deployment for real-time analysis.

SKILLS

- ****Programming Languages:**** JavaScript, HTML5, CSS3, C++
- ****Frameworks & Libraries:**** React.js, Node.js, Express.js, Bootstrap, Tailwind CSS
- ****Databases:**** MySQL
- ****Machine Learning & Data Science:**** Python (NumPy, Pandas, Scikit-learn), Data Visualization, Model Training & Evaluation, Data Preprocessing, Regression & Classification Techniques
- ****Tools & Platforms:**** Git, GitHub, VS Code, Postman, Jupyter Notebook
- ****Concepts & Methodologies:**** RESTful APIs, UI/UX Design, Problem Solving, Agile Methodology, Team Management

HONORS AND LEADERSHIP

- **Campus Ambassador** 2025 – Present
IIT Roorkee [\[Certificate\]](#)
 - **Represented IIT Roorkee as a Campus Ambassador**, leading outreach and engagement activities for students and communities.
 - **Organized and coordinated multiple events**, workshops, and webinars, impacting over 200+ participants.
 - **Initiated campaigns to increase student participation** and collaboration, demonstrating proactive leadership and strategic planning.
 - **Developed strong communication, team management, and problem-solving skills** through cross-functional collaboration.
- **Team Leader – Carbon Footprint Tracker Project (Ongoing)** 2024 – 2025
UTU
 - ****Lead a team of 4 students**** to develop a full-stack Carbon Footprint Tracker web application, which resulted in a ****10% reduction in average carbon emissions**** during the initial testing phase.
 - **Coordinated** all aspects of the project, including task allocation, development timelines, and code reviews, ensuring ****high-quality, on-time delivery****.
 - **Mentored team members** in front-end and back-end development, ****API integration****, and UI/UX design.
 - **Improved overall team collaboration and project management** skills while implementing a ****real-world sustainability solution****.
- **Flipkart Grid 6 Quiz Competition Certificate** 2025
[Organization Name] [\[Certificate\]](#)
 - **Achieved certification in the Flipkart Grid 6 Quiz Competition**, showcasing problem-solving and analytical skills.
 - **Performed under time constraints**, demonstrating persistence and strategic thinking.
- **Panchayat Quiz Competition Participation** 2025
IIT Roorkee [\[Certificate\]](#)
 - **Participated in a prestigious quiz competition**, showcasing analytical ability and adaptability under pressure.
 - **Enhanced professional exposure and networking** by engaging with peers, mentors, and experts.
